

Stroke is the third-leading cause of death in the United States and a leading cause of disability.

“Give Me 5” is a quick stroke check:

WALK (Is their balance off?)

TALK (Is their speech slurred or face droopy?)

REACH (Is one side weak or numb?)

SEE (Is their vision all or partly lost?)

FEEL (Is their headache severe?)

Even if you only have one symptom or your symptom(s) go away, call 911 and go to the emergency department!

For more information: 1-888-4STROKE or giveme5forstroke.org

THE STROKE COLLABORATIVE

The Stroke Collaborative is a joint campaign of the American Academy of Neurology, the American College of Emergency Physicians and the American Heart Association/American Stroke Association to encourage Americans to recognize stroke symptoms, call 9-1-1 and get to the emergency department.
